Tasting

The Grande Réserve bears coffee, cocoa and black fruits aromas.

Vinification

After the mechanical harvest on optimally ripe grapes, the destemming process is done before the controlled fermentation between 28 and 30°C in tanks. The bottling of the cuvée Grande Réserve is done with no prior filtration in order to obtain a better preservation of its aromas and gustatory quality.

Food and Wine

This wine goes perfectly with red meat, cheese or charcuterie.
